Assistant Commissioner for Patents
Crystal Park One
Suite 520
Washington, DC 20231

PETITION UNDER §1.182 (37 C.F.R. §1.182)

PETITION

Applicant(s) hereby petition(s) for:

Granting a filing date and serial number for a new DIVISION utility patent application,

Reallocation of paid fees to the new division utility patent application as the filing fee therefor, and,

Other necessary and equitable relief.

PETITION FEES (37 C.F.R. §1.117(i))

The petition fee is paid as follows

- ☐ Enclosed is a check in the sum of \$130.00
☒ Charge Account 07-0900 the sum of \$130.00

A duplicate of this petition is attached

OFFICE OF PETITIONS

Applicant Phil K. Zietlow et al

Serial No. N/A

Filing Date March 31, 2001

Title METHOD FOR PREPARING AN AERATED CONFECTIONERY FOAM ROPE

STATEMENT OF FACTS

Applicants filed utility patent application USSN 09/392,182 on September 9, 1999 entitled "METHOD AND APPRATUS FOR PROCESSING AN AERATED CONFECTIONERY FOAM ROPE" having attorney docket number "5183"

During prosecution, applicants received a three-way restriction requirement between

I - method of preparation claims (1-16),

II - a system for producing aerated confectionary ropes (claims 17-35), and

III - product claims (claims 36-40).

Applicants elected to proceed with prosecution of the method of preparation claims but traversed the restriction requirement at least insofar as it applied to Class II.

During further straightforward prosecution, the product claims (36-40) were canceled without prejudice by applicants' amendment and arguments for the patentability of method claims 1-16 were advanced by Applicants. Additional dependent method claims were introduced

By Examiners' amendment dated November 6, 2000, the title was changed to "Method for Processing An Aerated Confectionery Foam Rope" System of production claims (17-36) were cancelled.

In USSN 09/392,182, Applicants received a notice of allowance dated November 7, 2000

Applicants subsequently paid the issue fee timely on Jan 5, 2001 (by charge to General Mills' deposit account 07-0900). Along with the payment of the issue fee was a request for recordation of a patent assignment from the inventors to General Mills, Inc

On February 26, 2001, applicants received in USSN 09/392,182 a PTO notification that the application was to issue on March 6, 2001

Immediately thereafter, applicants prepared papers intending to file a division application before USSN 09/392,182 issued

Applicants intended to file a division from USSN 09/392,182 by papers sent to the USPTO by Express mail dated March 1, 2001 to be identified by attorney docket number GM1 5183 D1. These papers were date received by the PTO on March 2, 2001 but were date stamped

Applicant: Phil K. Zietlow et al.

Serial No.: N/A

Filing Date: March 31, 2001

Title: METHOD FOR PREPARING AN AERATED CONFECTIONERY FOAM ROPE

by the PTO as "March 1, 2001", as evidenced by post card receipt (copy attached as Item 1) and thus were received by the PTO prior to the issuance of the patent on USSN 09/392,182

The papers included

A transmittal cover letter authorizing an application fee in the amount of \$710.00 (by charge against General Mills, Inc. deposit account 07-0900) (copy attached as Item 2)

A copy of the specification, claims and drawings (not attached to this Petition) originally filed in USSN 09/392,182

A copy of the previously filed Declaration signed by the inventors (not attached to this Petition)

A postcard receipt (for attorney docket GMI 5183 D1) (copy attached as Item 3)

A preliminary amendment captioned GMI 5183 D1 canceling certain claims (the method of preparation and the product claims). The preliminary amendment also asked that the specification be amended to indicate that the present application be identified as a divisional of USSN 09/392,182 (copy attached as Item 4 with arrow highlight added herein for emphasis). The Preliminary amendment is captioned with the amended title in its parent application.

In the same packet of papers was a paper for filing in parent USSN 09/392,182 (attorney docket 5183) entitled "NOTIFICATION OF FILING OF CONTINUING, DIVISION OR CONTINUED-PROSECUTION APPLICATION" with the checkbox for division marked (copy attached as Item 5 with arrow highlight added herein for emphasis).

Without deceptive intent, applicants inadvertently used a transmittal cover letter erroneously characterizing the application as a Continuing Prosecution Application

USSN 09/392,182 subsequently issued on March 6, 2001 as US 6,197,355, however, with the original title and not with the title as amended by the Examiner's Amendment.

Applicants have not filed a PCT application and nor other division, continuation nor substitute applications.

The filing fee in the amount of \$710.00 was applied against USSN 09/392,182 (for support, see the copy of the PTO deposit Account attached as ITEM 6 with arrow highlight added herein for emphasis)

Applicants subsequently filed a status inquiry dated June 1, 2001

Applicant: Phil K. Zietlow et al.

Serial No.: N/A

Filing Date: March 31, 2001

Title: METHOD FOR PREPARING AN AERATED CONFECTIONERY FOAM ROPE

To date, applicants have not received a filing receipt for the desired continuation application.

Upon information and belief, applicants believe that the filed papers are presently associated with the file wrapper for USSN 09/392,182.

No other patent applications in this series are currently pending that applicant can use as a basis for a division application.

REMARKS

Except for the inadvertent use of the incorrect application transmittal cover sheet, the papers filed with the PTO indicate that Applicants clearly intended to file a division application and did not intend to file a continuing prosecution application.

Applicants did not attempt to abandon USSN 09/392,182 and fully intended that application to issue.

Usage of the continuing prosecution application transmittal cover letter was inadvertent, was used without deceptive intent and was the result of a clerical oversight.

The patent application papers should be accorded a filing date of March 1, 2001, since applicants properly used US Express mail.

The patent application papers were received by the PTO in fact on March 2, 2001 and thus before the issue date of USSN 09/436,823, now US 6,210,721.

Applicants can not use any currently pending patent application as a basis for filing a continuation application.

Applicants made one simple clerical error in using a wrong cover page for a transmittal form, namely: a CPA transmittal form, that was being phased out by the PTO.

An Information Disclosure Statement is not included with this Petition, but will be timely filed in the division application.

Applicants first became aware of the problem in June 2001 by virtue of not having received an expected filing receipt, contacted the PTO by June 1 by the status inquiry letter and subsequently via telephone in late June 2001 and have been informally trying since to resolve this matter with the PTO. Thus, Applicants have acted promptly upon becoming aware of the patent application's informalities to rectify any such informalities.

Applicant Phil K. Zietlow et

Serial No. N/A

Filing Date March 31, 2001

Title METHOD FOR PREPARING AN AERATED CONFECTIONERY FOAM ROPE

PRAYER FOR RELIEF

WHEREFORE, Applicants respectfully petition for:

- 1 Grant of a filing date for a division application of March 1, 2001. To assist the PTO in this regard, attached is a replacement page of the transmittal first sheet attached (captioned "Substitute") for the inadvertently used transmittal cover sheet.
- 2 Recognition by the Patent Office that applicants did not abandon USSN 09/392,182, now US 6,197,355
- 3 That the papers filed with the PTO having an effective filing date of March 1, 2001 be retrieved from the file wrapper of USSN 09/392,182 and be placed in the file wrapper of the division application.
- 4 That the \$710.00 intended to be made as an application filing fee and allocated to USSN 09/392,182 be re-allocated as an application filing fee for the division application or otherwise be credited to Deposit Account 07-0900.
- 5 That the PTO issue Applicants a filing receipt identifying the serial number for the division patent application recognizing the March 1, 2001 filing date.
- 6 Entry of the Preliminary amendment
- 7 Other necessary and equitable relief as deemed available by the PTO

Applicant: Phil K. Zietlow et al

This is a request, under 37 CFR 1.53(d) (Continued Prosecution Application), for a Continuation application of:

Prior application Serial Number: 09/392,182

filed on: 9/9/99

entitled: METHOD FOR PROCESSING AN AERATED CONFECTIONERY FOAM ROPE

1. ☐ Enter the unentered amendment previously filed on _____ under 37 CFR 1.116 in the prior nonprovisional application. Any additional filing fee required is included below.
2. ☒ A Preliminary Amendment is enclosed herewith. Any additional filing fee required by this amendment is included below.
3. ☐ This application is filed by fewer than all the inventors named in the prior application, 37 CFR 1.53(d)(4). Delete the following inventor(s) named in the prior nonprovisional application:
4. ☐ A new power of attorney or authorization of agent (PTO-SB 81) is enclosed.
5. ☐ An Information Disclosure Statement (IDS) is enclosed.
6. ☐ Small Entity Status:
 - a. ☐ A small entity status statement is enclosed.
 - b. ☐ A small entity status statement was filed in the prior nonprovisional application, and such status is still proper and desired.
 - c. ☐ Is no longer claimed.
7. ☐ An Extension of Time is filed concurrently herewith for the prior application.
